To find more about Ultrapolymers:

As a global leading company in styrenics, Styrolution offers high value materials and services towards the market. The Lustran/Novodur ABS materials represent a wide and high quality portfolio of superior materials that can help customers within various market segments. Lustran/Novodur are well known and respected brands in the market since many years.

**UNIQUE ADVANTAGES FOR UNIQUE MATERIALS:**
- Lustran / Novodur
- **MARKET SEGMENTS:**
  - Superior high gloss surface
  - Pre coloured + special measures (UV, laser marking,…)
  - Improved chemical resistance
  - Improved printability / printing
  - Wide range of HH-Portfolio
  - ABS/PC-Blends - high performance grades (heat, impact, emissions)
  - Automotive
  - Toys
  - Sanitary
  - Electroplated surfaces
  - Media
  - Telecom
  - Household goods
  - Furniture
  - Garden equipment

Terlux® is the trade name for Styrolution MABS polymers. Key properties of Terlux® are excellent transparency, high impact strength and good chemical resistance. Terlux® is a specialized material for applications which also demand excellent surface quality, luster and easy processing. Terlux® is widely used in medical applications and meets US Pharmacopeia Class VI guidelines.

**Market segments include:**
- Diagnostic and medical sector
- Cosmetics
- Hygiene items
- Office items
- Domestic goods
- Sport and leisure goods

**Properties that satisfy every customer:**
- Excellent transparency
- High impact resistance
- Good mechanical resistance and rigidity
- High thermal resistance
- Good chemical resistance
- Good processing (injection and extrusion)
